

## FLOW AND SAFETY TECHNOLOGIES

Specialized Process Knowledge. Customized Products. Delivered on Time.  
We Help Keep Your Plant Running!

## Instrumentation

### Flow

<b>Brooks Instrument</b>	Thermal mass meters and controllers, VA rotameters
<b>Flexim USA</b>	Clamp on liquid, gas and steam meters, both portable and permanent process and campus metering
<b>FCI - Fluid Components</b>	Thermal mass flow meters, switches and vortab straighteners
<b>ABB</b>	Mags, vortex and swirl meters
<b>McCrometer</b>	V-cone meters, prop meters, insertion and full bore mags, no straight run required
<b>Hoffer</b>	Turbine flow meters, oval gear meters

### Signal data acquisition, networking and communication

<b>ABB DCS</b>	Municipal distributed control systems and MCC's: 800xA, Symphony, F&P and Bailey legacy
<b>ABB Instruments</b>	Data acquisition recorders – municipal
<b>KEP</b>	Flow computers and panel indicators
<b>Precision Digital</b>	Panel meters, annunciators

### Analytical

<b>Servomex</b>	Laser, paramagnetic, IR, FTIR, trace, combustion zirconia custom sample conditioning, CEM analyzers
<b>Perma Pure</b>	Gas sample conditioning: coolers, driers, ammonia scrubbers, naphion tubes, pre-engineered sample systems; Baldwin coolers

### Level

<b>ABB Instrument</b>	Lasers, radar, ultrasonic, point level – muni
-----------------------	---

### Pressure & Temperature

<b>ABB Instrument</b>	DP & pressure and temperature transmitters
<b>Wika</b>	Stocked pressure and temperature gauges, transmitters, diaphragm seals
<b>Reo-Temp</b>	RTDs, thermocouples, thermowells
<b>ABB VFD Drives</b>	Municipal VFD low voltage drives, networked, NEMA enclosures, integrated panels, ABB authorized start up

**BROOKS**  
INSTRUMENT

**FCI** FLUID COMPONENTS  
INTERNATIONAL LLC

**H** HOFFER FLOW CONTROLS, INC.  
The Turbine Flowmeter Company™

**SERVOMEX**

## Safety Systems

### Flame and gas detection

#### **Draeger**

Fire & gas detection, custom systems, toxic and LEL, alarm systems, respiratory PPE protection, personal gas detection, portables and respiratory protection, fire panels, mapping studies

## Valves & Controls

#### **ARI Reyco**

Full nozzle safety relief valves, semi-nozzle, steam traps, strainers, check valves, custom steam systems, triple offset butterfly valves

#### **Apollo**

Ball valves, butterfly valves, gates & globes, safety relief valves

#### **Bestobell**

Industrial steam traps featuring the Delta element

#### **Burkert**

Sanitary diaphragm, angle seat on/off, solenoids, pneumatic manifolds

#### **Flo-Tite**

Ball valves, actuation and controls, Maxseal butterfly valves

#### **Hex**

Instrument manifolds, orifice block valves, gauge valves, needle valves & block and bleed valves.

#### **ITT**

Conoflow regulators, Neo-Dyn switches

#### **Jordan**

Industrial pressure regulators, back pressure regulators, control valves, temperature regulators and tank blanketing regulators.

#### **LowFlow**

Fractional flow pressure regulators and control valves

#### **Marwin**

1/4" – 8" manual and automated ball valves, all materials – hastelloy, monel – rush shipments

#### **Newco**

Gate, globe and check valves

#### **Sesto**

Alloy ball valves

#### **Steriflow**

Sanitary pressure regulators, back pressure regulators, control valves, compressed air & gas pressure regulators, low pressure blanketing regulators, check valves, ball valves, steam traps & SIP accessories

#### **RCI**

Pneumatic actuators, digital positioners

## Cross Field Services

Instrument start up and commissioning

Annual maintenance and calibration contracts

Authorized Brooks Mass Flow repair-calibration provider

Flow surveys and flow non-contact rentals

Repair and test center for low pressure vents and regulators

Systems integration services including: project management, loop drawings, submittals, panel fabrication, control configuration/engineering

Valve Automation Center: Pneumatic and electric valve assembly – custom and inventory

# Dräger

Flow-Tech has become part of Cross Company and we're very excited to welcome all of Flow-Tech's associates and customers to our company. Cross Company is a 100% employee-owned industrial solutions company that is innovating the industrial world, one customer at a time. We apply technologies and services that help our customers to increase efficiency, reduce risk and improve quality. Cross is located all over the eastern United States and has over sixty years of applying our expertise to help manufacturers in every industry. We divide ourselves into six operating groups, including Flow and Safety Technologies, each with a unique specialization. This means you get a full range of products and services within Cross, but in-depth, technical expertise within our groups.

[Contact Cross company to learn more  
about our service capabilities.](#)

**Serving Process Industry Customers across the USA**
