

Parker Liquifit Ball Valve

Perfect selection for the water and beverage industry

Being the world's leader in **push-to-connect fitting technology** Parker's Legris LIQUIfit push fit tube fittings extend Parker's expertise into the water and beverage industry. The LIQUIfit body is manufactured from a unique bio-based, high performance polymer produced from renewable plants, to expand the use of non-fossil-based resources. LIQUIfit quick connect water fittings offer an "eco-designed" innovative alternative for water applications; no fluid contamination occurs and environmental protection is guaranteed.

Markets

- Water Filtration
- Beverage Dispensing
- Life Science
- Bottling
- Semi-Conductor
- Medical

Applications

- Water Purification Systems
- Water Dispensers
- Hot & Cold Drink Dispensers
- Cooling Systems
- Food Process
- CO2

Ensure reliable and compact connections for your liquid transfer applications. Contact one of our hose experts today to discuss your fitting requirements. We look forward to hearing from you!

Parker SOFT-FLEX Diesel Exhaust Fluid Dispenser Hose

Coolant and Engine Hose

Parker Series 7116M provides excellent service in supplying DEF from dispensing units to equipment, storage tanks and vehicles. The specially formulated hose tube is corrosion resistant to limit the possibility of contamination and diminished performance of on-board selective catalytic reduction (SCR) systems of heavy duty vehicles. The hose cover resists abrasion and weathering. Series 7116M is qualified with corrosion resistant stainless steel permanent crimp couplings for a clean, safe and secure connection.

Markets

- Agriculture
- Construction
- General Industrial
- Transportation

Applications

- Dispensers
- In-plant tank transfer
- Storage tank transfer

Call one of Cross Company's hose experts today to learn more about the DEF Dispenser Hose and how it will benefit your application.
