Dust Collection Hose made in North Carolina

Flexaust Dust Collection Hose is produced right here in North Carolina. You likely already have dust collection hose in your woodworking facility, why not use a high quality locally sourced product?

- Standard & metric sizes available
- Static dissipative hose available
- Light weight materials
- Options compatible with a wide range of temperatures
- Excellent flexibility

Cross Hose & Fitting keeps a large stock of [Flexaust](#) hose in our stores. If we happen to not have what you need or you need very large quantities, we have quick access to additional stock from the Flexaust facility in Burlington, NC.

Stop by one of our locations or contact your local territory manager to learn more!

Get ready for leaf removal season

Flexaust video

Whether you're a local municipality with large leaf vacuum trucks or a homeowner with a consumer grade leaf vacuum machine, Cross Hose & Fittings has the right hose for you. We offer six different types of leaf and lawn collection ducting, made specifically for the task at hand. Ranging from 2" to 24", we can recommend the perfect hose for your particular application.

During the busy leaf collection season, you can't afford to have any downtime. Early fall is the time to inspect your leaf collection hoses for any cracks, tears, or holes that will keep you from getting the job done. We have a knowledgeable staff that can recommend the exact hose you need for your specific application. Contact a hose expert today!
