

# Hand Sample Cutters and Cutting Mats

## Rotary Hand Cutter KFY-2005A

With a safety guard and release button, this cutter is ergonomically designed to reduce hand fatigue. 45mm diameter hardened steel blade mounts on either side for left or right-handed users.

**KFY-2005B** Spare blade 45mm diameter

## Self-Healing Cutting Mats

Ship rolled up for economical shipping costs; flatten out on table-top easily, more quickly with the help of a hair dryer. Tough enough to cut on, but soft enough to accept push-pins to stabilize fabrics. Standard size mats have 1" square grids. All mats are 1/8" thick reversible and semi-transparent.

**KFY-2006A** Cutting Mat 18.5" x 24.5"

**KFY-2006B** Cutting Mat 24.5" x 36.5"

**KFY-2006C** Cutting Mat 47.5" x 96.5"

For a full-size cutting table, mats can be trimmed to size.
