

WHY TITAN?

ADD IT UP

You know better than us: A downed pipeline is expensive!
At \$1,000 or more an hour, costs can quickly exceed \$24,000/day. This is unjustifiable when you are waiting for a part that may only cost a few bucks.

1.

don't let downtime, get you DOWN!

**Titan is not going to make you wait.
We can QUICKLY ship:**

- ◆ Screens for Y-Strainers
- ◆ Baskets For Basket Strainers
- ◆ Even COMPETITOR'S Screens and Baskets

FIVE GREAT REASONS TO CHOOSE TITAN FLOW CONTROL

hold on...we've GOT it!

3.

During tough economic times, we know it is difficult for you to justify inventory holding costs.

Titan's commitment to supporting its distributors is obvious. With over \$4,000,000 in stock, we've got you covered ...and dont worry, our pricing is as competitive as always!

So let's HOLD ON during these times and we will get through them together!

2.

**"press '1'
for sales..."**

Don't you just love technology?

Hasn't it made all of us so efficient?

So efficient that we no longer even have to pick up the phone??!

At Titan, we *love* to embrace new technology, but not while sacrificing *outstanding customer service!*

**When you call, you will speak with a
REAL, LIVE PERSON
EACH TIME
EVERY TIME**

Titan Flow Control, Inc.

4. rebate programs that COUNT

Ever wonder how your cash rebate was used?

Unfortunately, most rebates are realized by the finance department, not purchasing. So you get **zero** credit for your hard work!

That's why Titan provides material rebates ensuring that the benefit is realized by the people in the trenches.

With material rebates, your purchasing budget is immediately impacted and you look like a **hero**!

Everything we know about the pipeline industry is available to you.

Management staff with over **400 years of experience** in the pipeline industry

35% of our office staff has **engineering degrees**

Access to **part drawings and 3D models**

Dynamic and feature-rich web site

Complete and concise literature

5. our knowledge is your POWER!
